

PRC001 POWERED RESPIRATOR

Features & Benefits

- Combines a lightweight hard-hat, full face hinged visor for face & eye protection, integral high quality ear muffs for hearing protection (ear muffs “click” out when not needed) and a lightweight adjustable neck shroud.
- A continuous wash of air is generated by a waist-mounted, rechargeable power pack. The air is directed down inside of the visor and across the face, eliminating any potential for fogging. This gentle airflow at the ambient temperature keeps your face cool and comfortable.
- It is very effective in filtering airborne dusts such as those created in woodworking jobs. Sawing, routing, shaping, sanding, turning, using a grinder when working with metal or stone, sanding body filler, preparing weather boards for paint, etc. – the list is endless.

Standard Equipment

- ✓ Certified Hard Hat
- ✓ High Impact Polycarbonate Visor
- ✓ 23dB Retractable Ear Protection
- ✓ Rechargeable Battery Pack
- ✓ 2 Standard Filters and washable Pre-Filter
- ✓ “Quick Connect” flexible hose

Specifications

Recommended Use	Particulate filtration only
Hard Hat	Industrial Hardhat (approved to AS/NZS 1801)
Visor	High impact resistance (approved to AS/NZS 1337)
Filters	Protection to Class PAPR P1 or P2 standard
Ear Muffs	23dB protection, soft cushion (“click” upward when not in use)
Estimated Battery Life	4 – 6 hours
Battery Type	Rechargeable NiCad (8 hour charge time)
Accessories	Spare power pack, replacement visor, filters & pre-filter
Weight	Helmet 2.4lbs Power Pack 3lbs
UPC Code	873780000108
Item #	PRC001
Country of Origin	Australia / PRC
Warranty	30 day satisfaction - 3 Year manufacturer’s defect
